

NAME:

Year 7 – Indigenous Australia – Liveability

Read the 'Wellbeing' (page 29) section of the fact book and complete the following activities.

Brainstorm some things you would NOT want in the community you live in (ie. Things that would decrease liveability).

Why do you think some people/groups live in communities that have lower levels of liveability?

What factors influence where Indigenous Australians choose to live?

Are all Indigenous Australians able to live on their Country? Why/why not?

Four key aspects of liveability are social connectedness, community identity, environmental quality and accessibility to services and facilities. Rank these aspects from one to four based on how important you think they are to liveability for Indigenous Australians. Justify your ranking for each aspect.
