Refugee Crisis

CONFLICT

1. Go to https://www.cfr.org/interactives/global-conflict-tracker#!/global-conflict-tracker and at the top of the map in the 'Browse By' section select 'Conflict Status'.

2. Using the blank world map on the next page, identify where conflicts are currently taking place in the world. Create a legend and use different colours to identify conflicts that are improving, worsening and unchanged.

3. Give your map an appropriate title.

4. Choose one of the conflicts that you would like to research further and use the table below to organise your research.

CONFLICT:	
When did the conflict start?	
Who is involved in the conflict?	
How many casualties have there been?	
What is the cause of the conflict/why is it happening?	
How many people have fled the country?	
Where have people fled to?	
How did people flee? What form of transport did they use?	

Refugee Crisis

SHORT STORY

Using the information you have gathered on your chosen conflict, create an imaginative recount of a refugee fleeing from this country.
Use the 'Short Story Structure and Editing Guide' to assist you.
